

Initial Presentation

Presenter shall be responsible to provide the following at least three working days prior to the start of the Review Committee Meeting to the Secretary, Wendy Grubbs (wgrubbs@p-r-i.org)

- a. A written notification (GL Form 0) indicating an estimate of the number of programs to be submitted by the Presenter.
- b. Please contact PRI Headquarters at 724/772-8647 for shipping instructions.

Physical Appearance for Presentation – Presenter to provide twelve (12) packets of the following information in this order:

- a. GL Form 0
- b. Applicable RGL forms 1-4
- c. Applicable GL forms 1-3a
- d. Field test results when applicable

Test Reports – Presenter to provide two (2) copies of the following:

- a. ASTM D5704 – one photo required
- b. ASTM D7038 – no photo required
- c. ASTM D 6121 – no photo required
- d. ASTM D 7452 - no photo required
- e. ASTM D 5662 – no photo required

One copy of the test report submitted to the Committee must include the original or copy of the following:

- a. ASTM D 6121 Lubricant Temperature Chart or Trace
- b. L-42 Load Torque Chart or Trace

The following parts of each test shall be submitted to the committee:

- a. ASTM D5704 – the two gears
- b. ASTM D 7038 – The drive pinion, the differential case assembly and drive gear with the drive gear bolts removed, the two pinion and the two differential bearing assemblies, thrust washers, and the axle housing cover.
- c. ASTM D 6121 – The drive pinion and the drive gear.
- d. ASTM D 7452 – The drive pinion and the drive gear.

NOTE: If more than one D6121 or L-42 test is required, then the same parts listed in “c” and “d” are required from the second test.
