

Performance360SM

A PRI Program

ENABLING SUCCESS IN CRITICAL MANUFACTURING & QUALITY

Optimize your internal systems

Manage your supply chain

Improve your company performance

Services we offer

Through our customized services, we help you to optimize your internal systems, manage your supply chain, and improve your company's performance. This is achieved through a focus on the critical manufacturing and quality processes of your company and those of your suppliers.

1 Internal Audits

Working with you to perform an internal audit of your Quality Management Systems and/or Critical Processes. This service can also be conducted prior to an industry-managed program accreditation or certification audit.

2 Supply Chain Audits

Collaborating to undertake audits of your supply chain, including qualification of new suppliers and assessments of your current suppliers to check for compliance to all or some of the following: industry standards, industry-managed program audit criteria, and customer requirements.

3 Audit Question Development

Working together to establish customized audit questions which cover critical and quality processes, and quality management system requirements.

4 Training & Personnel Qualification Needs Assessment

Jointly identifying/determining training and qualification needs among staff in your company and that of your suppliers.

5 Non-Conformance Report (NCR) Resolution

Collaboratively developing a tailored Non-Conformance Report (NCR) resolution plan specifically designed to address your critical issues; and developing documents, job aids, work instructions, testing protocols, and qualification samples recommended from the NCR resolution plan.

About our Auditors

Performance360SM Auditors are elite in their field, based on their level of education and years' experience, with candidates selected based on their education, technical background, and experience in the related industry.

Managed by the Performance Review Institute (PRI)

Performance360 is managed by the Performance Review Institute (PRI) which is the world leader in facilitating collaborative supply chain oversight programs, quality management systems approvals, and professional development in industries where safety and quality are shared values.

Established as a not-for-profit trade association in 1990, PRI serves customers globally through our offices in the USA, UK, China, and Japan. We strive to partner with our customers to drive flawless performance in high stakes industries. Our work helps to improve product quality and safety, while reducing costs, and is aligned with the most technologically advanced companies and engineering efforts in the world.

PRI is trusted by stakeholders in critical industries globally to provide superior technical accreditations, management systems auditing, and professional development opportunities.

We protect what matters.
